Education

National University of Science and Technology POLITEHNICA of Bucharest Bucharest, Romania

B.S. in Computer Science and Engineering. 2nd Year Grade: 10/10

October 2024 - July 2028

Relevant Courses: Data Structures, Algorithm Design and Analysis, OOP, Operating Systems, Numerical Methods and Analysis, Networks and Communication Protocols, Statistics and Optimization, Functional Programming

Technical Experience, Leadership & Volunteering

Software Engineering Intern - AMIQ EDA

Bucharest, July - September 2026

- Currently in the onboarding process - intensive courses on DVT, HDL's; will be working in Java

Discover Citadel - Citadel & Citadel | Securities

London, UK, March 2026

- Selected as **1 of 95** attendees out of **9,400+** applicants
- Collaborated in teams to solve coding challenges and trading simulations
- Gained insights of Citadel's technical infrastructure through presentations by engineers from different teams

CEOI - Scientific Committee - SEPI Romania

Bucharest, December 2024 - July 2025

- Designed and proposed a problem for CEOI (**Central European Olympiad in Informatics**), developing stress tests defending against hacky solutions from participants.
- Engineered problems for 11th and 12th-grade participants in the **National Olympiad in Informatics** (ONI 2025 and 2026). Contributed to problem testing and evaluation.

CCNA Junior Instructor - Hackademy

Bucharest, October 2025 - Present

- **Taught the CCNA Introduction to Networks** course to a class of **35** college students at UPB.

Computer Science Olympiad Teacher - Spectrum School of Constanta

October 2022 - May 2023

- Trained ~ 15 students for National CS Olympiad, covering algorithms and problem-solving techniques.

Honors & Awards

- **2025 and 2024: 4th place, Bronze Medal, Romanian Collegiate Programming Contest (RCPC), Bucharest**
- **2024: 3rd Prize, Gold Medal, National Informatics Olympiad, Bucharest**
- 2023: Honorable Mention, Silver Medal, National Informatics Olympiad, Bucharest
- 2023: National Team Qualification, Honorable Mention, Silver Medal, National Physics Olympiad, Oradea
- Additional medals: 1 silver and 1 bronze in Informatics (2022 and 2021), 2 silver in Physics, 1 silver and 2 bronze in Mathematics

Projects

DraWar - Real-Time Multiplayer AI Drawing Game 

November 2025 - January 2026

- Built a real-time multiplayer web game using Flask-SocketIO and eventlet, handling concurrent connections and game state synchronization with race condition mitigation.
- Trained a CNN on the Google QuickDraw dataset (45 classes) and deployed it as a separate FastAPI microservice to avoid blocking the WebSocket event loop.

Order Book C++ Project

January 2026

- Implemented a C++ limit order book supporting buy/sell limit orders, partial fills, iceberg orders, and price-time priority matching.
- Designed ordered bid/ask queues with iceberg replenishment, queue-priority updates, and aggregated trade reporting across multiple executions.

LocalVibe - AI Event Finder 

October 2025

- Technologies: React, TypeScript, GoogleMaps API, Firebase (authentication, deployment and database), Gemini API
- Fullstack app that helps users discover nearby events through an interactive map and an AI chatbot that recommends activities based on mood and preferences;

Digit Recognition Neural Network in MATLAB

April 2025

- Implemented forward propagation, backpropagation, and L2-regularized cost function from scratch in MATLAB, without high-level ML libraries.
- Trained a two-layer neural network (400-25-10) on an MNIST digit recognition task using Conjugate Gradient optimization.

Skills & Interests

Technical: Intermediate in C, C++, Python, and Java.

Some experience with JavaScript, Kotlin, Dart, Flutter, Matlab, Bash, Flask, Assembly x86, HTML, Jinja.

Courses & Certifications: Google Android ABC Summer School, IPWorkshop Autonomous Cars Course, CCNA1, CCNA2, CCNA3, Security Summer School - Essentials Track

Competitive Programming and Hackathons: 2025: OpenHack, Bitdefender CTF, RoNaQCI Quantum Hackathon, NSDSS Network Design Hackathon; AGM 2024, IIOT 2024, CCC 2023, UniHack 2023, iTec 2022
